#### **V. REMUNERATION TO THE MANAGEMENT COMPANY AND COMPENSATION FOR EXPENSES**

15. For management of the assets of the Company, the Management Company shall be paid remuneration consisting of the management fee and the success fee.
16. The management fee is the remuneration paid to the Management Company for management of assets of the Company, which shall be payable for each quarter of a calendar year. The annual management fee shall be 2 percent of the weighted average capitalisation of the Company, calculated according to the following formula:

$$VM = \sum_{i=1}^n \left( \frac{T_i}{Q_i} * Vnt_i \right) * \left( \left( 1 + \frac{A}{100} \right)^{\frac{1}{n}} - 1 \right)$$

where:

VM – annual amount of the management fee;

Q<sub>i</sub> – the number of shares transferred on a regulated market during a trading session of day i. If a regulated market did not trade on i day, the average Share price (T<sub>i</sub>/Q<sub>i</sub>) of the i day, shall be the previous (i-1) day's annual Share price;

n – business days per year, regardless of number of trading days;

Vnt<sub>i</sub> – the number of shares of the Company on end of the business day i;

A – the annual management fee in percent;

T<sub>i</sub> – the turnover of shares during a session of trading day i according to shares trading data on the regulated market, calculated according to the formula:

where:

k - number of transactions on a regulated market during the i day;

P<sub>j</sub> – share price of j transaction on a regulated market;

Q<sub>j</sub> – number of shares of j transaction on a regulated market.

If there was no trading in shares of the Company throughout the entire calendar quarter, the management fee for the quarter of a calendar year shall be equal to 0.5 percent of the average net asset value of the Company in the quarter, which shall be calculated as the arithmetic average of values at the beginning and at the end of the quarter.

17. The management fee for the past four quarters of a calendar year shall be adjusted by auditors. The management fee overpayment or underpayment amount, which becomes apparent when auditors present conclusions on the net asset value of the Company or the weighted average price of the shares of the Company on a regulated market, will accordingly be deducted from or added to the management fee payable for the next period after the approval of the annual report of the Company.
18. The share of profit of the Company belonging to the Management Company, i.e. the success fee, directly depends on the return earned by the Company, which shall be calculated for the whole Company but not for an individual Shareholder. Microsoft Excel function XIRR shall be used for determining the return earned by the Company, which shall regard days (i.e. account shall be taken of periods) when positive and negative flows occurred and the amount of such flows.
19. The profit of the Company shall be the amount of positive and negative flows in respect of Shareholders, where:
  - 19.1. the initial negative flow was incurred on 8 July 2015 and is equal to 12,175,321 (number of shares) \* EUR 1.65 (issue price) = EUR 20,089,279.65;
  - 19.2. a positive flow is dividend paid to Shareholders, if any was paid when distributing the net profit of the Company;
  - 19.3. a positive flow is funds disbursed to Shareholders by the Company when purchasing its own shares;
  - 19.4. a positive flow is funds disbursed to Shareholders by the Company when mandatorily redeeming shares;
  - 19.5. a positive flow is funds disbursed to Shareholders by the Company when reducing the authorised capital;
  - 19.6. a positive flow is the net asset value on the date of calculation of the success fee;
  - 19.7. a positive flow is monetary funds, remaining in the Company's account at the time of liquidation, after settling accounts with creditors;
  - 19.8. a positive flow is any other payments to Shareholders;
  - 19.9. a negative flow is the size of each new share issue of the Company.
20. In case the annual return of the Company is 8 (eight) percent or less, no success fee shall be calculated and paid – all the return earned by the Company shall go to Shareholders.
21. In case the annual return of the Company is over 8 (eight) percent but less than or equal to 10 (ten) percent, first of all, a part of profit, in case of which the return of the Company would be equal to 8 (eight) percent, shall be determined. 100 (one hundred) percent of this part of the profit of the Company shall be distributed to Shareholders pro rata to the number of shares of the Company held by them. The remaining part of the profit shall be the success fee that belongs to the Management Company.
22. In case the annual return of the Company is over 10 (ten) percent, first of all, a part of profit of the Company, in case of which the return of the Company would be equal to 8 percent, shall be determined. This part of the profit shall be distributed to Shareholders pro rata to the number of shares of the Company held by them. The remaining part of the profit of the Company shall be distributed to Shareholders at the ratio 80/20, i.e. 80 (eighty) percent of the return shall be distributed to Shareholders pro rata to the number of shares held by them, whereas 20 (twenty) percent shall go to the Management Company as the success fee.
23. The correctness of the calculation of the success fee shall be checked by the Depository.
24. The Success Fee shall be disbursed to the Management Company only after the Shareholders are paid their initial investment (indicated in Clause 18.1 of the Agreement) with the annual return of 8

(eight) percent. Until then, the success fee shall be accumulated and reflected in financial statements as a liability to the Management Company.

25. The Success Fee shall be disbursed to the Management Company each time when funds are disbursed to the Shareholders if the obligation in Clause 24 of the Agreement is fulfilled.
26. The success fee commitment shall be recalculated on each reporting day, taking into account the return of the Company from 8 July 2015 (the initial negative cash flow) until the relevant reporting day.
27. The Company shall compensate the Management Company for expenses incurred by the Management Company for the benefit of the Company, which can be covered from the assets of the Company according to the Articles of Association.
